WWW.NASSSA.COM.AU

AGRICULTURE AND SCIENCE INDUSTRIES

ANIMAL STUDIES

These courses suit students interested in either working with animals or volunteering and caring for animals. They provide theory and practical training in both a simulated and workplace environment. Students will learn animal hygiene routines, feed and water animals and communicating in the workplace.

Some possible pathways

- » Park Ranger
- » Veterinary Assistant
- » Groomer

Courses offered in Animal Studies

RURAL OPERATIONS

Rural Operations Workers can be engaged in a wide range of seasonal tasks. Work may include animal-handling activities, seasonal horticultural production work, assisting in crop maintenance, basic repair of plant and equipment, maintaining property and structures and wool industry work. Much of the work is hands-on and students must be prepared to work in all weather conditions.

Some possible pathways

- » Farm Hand
- » Rural Sales Assistant
- » Horticulture

Courses offered in Rural Operations

AUTOMOTIVE INDUSTRIES

AUTOMOTIVE

These courses suit students interested in the automotive vehicle industries. They provide theory and practical training in a workshop environment. Students will undertake workshop practices such as servicing and fault finding in light vehicle engines, systems and components.

Some possible pathways

- » Service Technician
- » Panel Beater/Spray Painter
- » Light Vehicle Mechanic

Courses offered in Automotive Mechanical Technology

ENGINEERING INDUSTRIES

ENGINEERING

This course suits students interested in the engineering industry. The qualification is a well balanced program designed to teach students both the theoretical and practical skills to work safely within a workshop. The course will expose students to a range of specialist equipment such as lathes, milling machines, multiple welding systems, e.g. MIG, TIG, Arc and more.

Some possible pathways

- » Design Engineer
- » Fabricator

Courses offered in Engineering (Fabrication) and Engineering (Mechanical)

CONSTRUCTION INDUSTRIES

BUILDING CONSTRUCTION

These courses suit students interested in the building and construction industry. They provide theory and practical training in both a workshop and live site environment. Students can focus on a variety of construction pathways including general construction, plumbing and painting and decorating. Students will learn WHS requirements in the construction industry, use construction tools and equipment and carry out measurements and calculations.

Some possible pathways

- » Bricklayer or Concreter
- » Carpenter
- » Painter and Decorator
- » Plasterer
- » Plumber
- » Roof Plumber
- » Stonemason
- » Tiler

Courses offered in Building Construction, Carpentry, Brick and Blocklaying, and Plumbing

ELECTRO- TECHNOLOGY INDUSTRIES

ELECTROTECHNOLOGY

This course provides basic industry skills and an introduction to the broad range of electrotechnology pathways providing students with an opportunity to experience what the electrotechnology industry is all about. Students work within a workshop environment and undertake practical and theory tasks including learning soldering, CNC milling, AutoCAD, electronic projects and problem solving.

Some possible pathways

- » Electrician
- » Computer Assembly and Repair Technician
- » Instrument Fitter

Courses offered in Electrotechnology

FITNESS INDUSTRIES

FITNESS

These courses are designed for students who have an interest in working in the fitness industry. Students gain practical and theoretical knowledge in a classroom and gym environment. Students will learn how to instruct fitness programs, incorporate anatomy and physiology principles into fitness programming and provide healthy eating information.

Some possible pathways

- » Gym Instructor
- » Personal Trainer

Courses offered in Fitness

HAIR AND BEAUTY INDUSTRIES

HAIRDRESSING

In these courses, students will learn the basics of hairdressing including shampooing, blow drying, treatments and braiding. This course is highly practical and students will be expected to work both individually and as part of a team.

Some possible pathways

- » Hairdresser
- » Salon Assistant

Courses offered in Hairdressing and Salon Assisting

BEAUTY

These courses are designed for students who would like to learn a range of make-up techniques including demonstrating the use of a variety of retail cosmetic products. Students will also develop skills in retail operations as they apply to selling skin care products, cosmetics and treatments.

Some possible pathways

- » Beautician
- » Makeup Artist

Courses offered in Make-Up and Beauty

HOSPITALITY AND FOOD PROCESSING INDUSTRIES

FOOD AND HOSPITALITY

These courses focus on either Front of House or Kitchen Operations (Cookery). Students will undertake front of house or kitchen operation duties in both a simulated and restaurant work environment and will learn to communicate in the workplace, participate in safe work practices and work effectively with others.

Some possible pathways

- » Chef
- » Caterer
- » Restaurant Supervisor
- » Food and Beverage Attendant

Courses offered in Kitchen Operations and Hospitality

FOOD PROCESSING

Kick start your career in baking! This course enables students to gain skills and knowledge with hands-on experience making a range of bakery products. Students will complete a course with a baking focus. Students will learn about food safety, WHS, quality systems and environmentally sustainable work practices.

Some possible pathways

- » Baker

Courses offered in Food Processing

HEALTH AND COMMUNITY SERVICES INDUSTRIES

CHILD CARE

Students learn how to support children and their families within child care settings and to be part of a team implementing appropriate programs for young children. Students will learn about the theories of child development and brain development, undertaking observations and writing reports, and communicating with children, care givers and others.

Some possible pathways

- » Child Care Worker
- » Education Aide
- » Family Day Care Worker

Courses offered in Early Childhood Education and Care

HEALTH AND COMMUNITY SERVICES

These courses provide an introduction to the community services industry including children's services, aged care, disability, mental health and youth services. Students can choose their area of focus in most courses while gaining a basic understanding of the community services industry. Students will learn to communicate with others, provide first point of contact and support group activities.

Some possible pathways

- » Health Support Services Worker
- » Youth Worker
- » Mental Health Worker
- » Nurse

Courses offered in Community Services and Health Services

INDIVIDUAL SUPPORT (AGEING OR DISABILITY)

Students will learn how to provide personal care, social and emotional support to a person with a disability or an older person. This will include providing care for individuals with dementia, manual handling, first aid, and work effectively with culturally diverse clients.

Some possible pathways

- » Diversional Therapist
- » Nurse
- » Aged Care Worker
- » Disability Worker

Courses offered in Individual Support Ageing or Disability

MULTIMEDIA INDUSTRIES

CREATIVE INDUSTRIES, GAME DESIGN

These courses provide an introduction to critical thinking and industry knowledge in a range of multimedia pathways. There are a variety of different specialisations in the creative industries courses including Gaming, Coding, Live Production and Multimedia. Students will focus on developing critical skills in these areas including animation, digital imaging, film making, programming skills and game design.

Some possible pathways

- » Film Maker/Editor
- » Website Developer
- » Game Designer
- » 2D/3D Animator
- » Technical Artist

Courses offered in Game Design

INFORMATION TECHNOLOGY AND BUSINESS PROGRAMS

INFORMATION TECHNOLOGY

These courses are designed to develop students' skills and understanding of software, hardware and operating systems. Students will learn how to communicate in an IT environment, run standard diagnostic tests and provide IT advice to clients.

Some possible pathways

- » Computer Programmer
- » Network Manager
- » IT Support Technician
- » Cyber Security
- » Website and App Developer

Courses offered in Information Technology

BUSINESS

This course is designed for students who want to work in an office environment, such as finance, reception or human resources. Students will get a hands-on experience in the day-to-day operations in an office environment including communicating with customers, managing invoicing and organising office resources.

Some possible pathways

- » Office Administrator
- » Personal Assistant
- » Finance Officer

Courses offered in Business

THE NORTHERN ADELAIDE STATE SECONDARY SCHOOLS' ALLIANCE

OPEN FOR YOUR FUTURE

ABOUT NASSSA

NASSSA is a confederation of twelve schools in Northern Adelaide.

NASSSA was formed to maximise the learning opportunities, career pathways, retention and educational outcomes for all students in alliance schools in Northern Adelaide.

By collaborating, combining resources and mobilising community and industry support across the alliance schools, NASSSA aims to improve outcomes for all students.

NASSSA is focused on identifying and supporting educational innovation so that students in alliance schools successfully transition from school to employment, training and further education.

NASSSA is a key link between schools and community, University, Registered Training Organisations and industry partners across Northern Adelaide.

NASSSA provides nationally accredited Vocational Education and Training (VET) which is recognised in a student's SACE.

HOW TO APPLY

Look at our website nasssa.eschoolsolutions.com.au/pages/public/viewcourses.aspx or nasssa.com.au/students/vet for more detailed information about the courses you are interested in. Then contact your school's VET Leader to discuss the application process.

You will go through a counselling application and selection process. Course providers will ultimately approve enrolments. Students will be notified of the outcomes by a letter during Term 4, 2021, which will include the details of the orientation and training days which you will be required to attend.
