THE NORTHERN ADELAIDE STATE SECONDARY SCHOOLS' ALLIANCE

OPEN FOR YOUR FUTURE

ABOUT NASSSA

NASSSA is a confederation of eleven schools in Northern Adelaide.

NASSSA was formed to maximise the learning opportunities, career pathways, retention and educational outcomes for all students in alliance schools in Northern Adelaide.

By collaborating, combining resources and mobilising community and industry support across the alliance schools, NASSSA aims to improve outcomes for all students.

NASSSA is focused on identifying and supporting educational innovation so that students in alliance schools successfully transition from school to employment, training and further education.

NASSSA is a key link between schools and community, University, Registered Training Organisations and industry partners across Northern Adelaide.

NASSSA provides nationally accredited Vocational Education and Training (VET) which is recognised in a student's SACE.

HOW TO APPLY

Look at our website nasssa.eschoolsolutions.com.au/pages/public/courses.aspx or nasssa.com.au/students/vet for more detailed information about the courses you are interested in. Then contact your school's VET Leader to discuss the application process.

You will go through a counselling application and selection process. Course providers will ultimately approve enrolments. Students will be notified of the outcomes by a letter during Term 4, 2019, which will include the details of the orientation and training days which you will be required to attend.

HORTICULTURE

Introduces pathways into a range of industries linking horticultural knowledge. Learn about: plant propagation; pests and diseases; tree care; and soils and nutrition. Much of the learning is hands on and students must be prepared to work in all weather conditions.

Some possible pathways

- » Agronomist
- » Horticulturist
- » Landscaper

Courses offered in Horticulture

AGRICULTURE AND SCIENCE INDUSTRIES

ANIMAL STUDIES

These courses suit students interested in either working with animals or volunteering and caring for animals. They provide theory and practical training in both a simulated and workplace environment. Students will learn animal hygiene routines, feed and water animals and communicating in the workplace.

Some possible pathways

- » Park Ranger
- » Veterinary Assistant
- » Groomer

Courses offered in Animal Studies

LABORATORY SKILLS

This course is designed for students who are interested in pursuing a career in laboratory work. Students will be exposed to skills relating to handling procedures with lab equipment, chemicals and basic instruments. Students will conduct laboratory and field tests, record and present data and maintain the laboratory fit for purpose.

Some possible pathways

- » Laboratory Technician
- » Laboratory Sampler/Tester
- » Pathology Collector

Courses Offered in Laboratory Skills

AUTOMOTIVE INDUSTRIES

AUTOMOTIVE

These courses suit students interested in working within the automotive industry. They provide theory and practical training in a workshop environment where students will undertake workshop practices such as servicing and fault finding in light vehicle engines, systems and components.

Some possible pathways

- » Service Technician
- » Panel Beater/Spray Painter
- » Light Vehicle Mechanic

Courses Offered in Automotive

CONSTRUCTION INDUSTRIES

BUILDING CONSTRUCTION

These courses suit students interested in the building and construction industry. They provide theory and practical training in both a workshop and live site environment. Students can focus on a variety of construction pathways including general construction, plumbing and painting and decorating. Students will learn WHS requirements in the construction industry, use construction tools and equipment and carry out measurements and calculations.

Some possible pathways

- » Bricklayer or Concretor
- » Carpenter
- » Painter and Decorator
- » Plasterer
- » Plumber
- » Roof Plumber

Courses Offered in Building Construction, Civil Construction, Carpentry, Brick and Blocklaying and Roof Plumbing

ENGINEERING INDUSTRIES

ENGINEERING

This course suits students interested in the engineering industry. The qualification is a well balanced program designed to teach students both the theoretical and practical skills to work safely within a workshop. The course will expose students to a range of specialist equipment such as lathes, milling machines, multiple welding systems, e.g. MIG, TIG, Arc and more.

Some possible pathways

- » Design Engineer
- » Fabricator
- » Jeweller

Courses offered in Engineering (Fabrication) and Engineering (Mechanical)

ELECTRO-TECHNOLOGY INDUSTRIES

ELECTROTECHNOLOGY

This course provides basic industry skills and an introduction to the broad range of electrotechnology pathways providing students with an opportunity to experience what the electrotechnology industry is all about. Students work within a workshop environment and undertake practical and theory tasks including learning soldering, CNC milling, AutoCAD, electronic projects and problem solving.

Some possible pathways

- » Electrician
- » Computer Assembly and Repair Technician
- » Instrument Fitter

Courses Offered in Electrotechnology

FITNESS INDUSTRIES

FITNESS

This course is designed for students who have an interest in working in the fitness industry. Students gain practical and theoretical knowledge in a classroom and gym environment. Students will learn how to instruct fitness programs, incorporate anatomy and physiology principles into fitness programming and provide healthy eating information.

Some possible pathways

- » Gym Instructor
- » Personal Trainer
- » Human Movement

Courses offered in Fitness

HAIR AND BEAUTY INDUSTRIES

HAIRDRESSING

In these courses, students will learn the basics of hair including shampooing, blow drying, treatments and braiding. This course is highly practical and students will be expected to work both individually and as part of a team.

Some possible pathways

- » Hairdresser

Courses offered in Hairdressing and Salon Work

BEAUTY

These courses are designed for students who would like to learn a range of make-up techniques including demonstrating the use of a range of retail cosmetic products. Students will also develop skills in retail operations as they apply to selling skin care products, cosmetics and treatments.

Some possible pathways

- » Beautician
- » Makeup Artist
- » Nail Technician

Courses offered in Cosmetics, Nails and Make-Up

ABORIGINAL PROGRAMS

KAURNA LANGUAGE

The land has multi-layers of literacy and therefore to Aboriginal people, language is much more than just words. It is a direct link to land and country. It holds traditional songs and stories. It is about spirituality and deep meaning and it reflects unique cultural concepts and ways of looking at the world. Cultural learning is a major part of this course. Instruction is delivered through intensive workshops and also in community owned and driven environments. Students should be prepared to do at least 20 hours per week of unstructured practice of language.

Some possible pathways

- » Interpreter
- » Cultural Tour Guide
- » Community Services Worker

Courses offered in Kaurna Language

HOSPITALITY, TOURISM AND FOOD PROCESSING INDUSTRIES

FOOD PROCESSING

This qualification covers a range of food processing industries and students will produce a variety of products including baked goods, mince, sausages, chocolates and confectionery. Students will learn about safe food handling, occupational health and safety and how to clean and sanitise equipment.

Some possible pathways

- » Baker
- » Butcher
- » Chocolatier

Courses Offered in Food Processing

FOOD AND HOSPITALITY

These courses focus on either Front of House or Kitchen Operations (Cookery). Students will undertake front of house or kitchen operation duties in both a simulated and restaurant work environment and will learn to communicate in the workplace, participate in safe work practices and work effectively with others.

Some possible pathways

- » Chef
- » Caterer
- » Restaurant Supervisor
- » Food and Beverage Attendant

Courses Offered in Kitchen Operations and Hospitality

FOR FULL DETAILS ABOUT COURSES OFFERED PLEASE VISIT

- » Marketing Manager
- » Business Manager

Courses Offered in operating a Micro Business

BUSINESS

This course is designed for students who want to work in an office environment, such as finance, reception or human resources. Students will get a hands on experience in the day to day operations in an office environment including communicating with customers, managing invoicing and organising office resources.

Some possible pathways

- » Office Administrator
- » Personal Assistant
- » Finance Officer

Courses Offered in Business

TRANSPORT AND LOGISTICS INDUSTRIES

LOGISTIC OPERATIONS

In this course, students will undertake both practical and theory components of transport and logistics. They will explore the day to day operations of a transport and logistics company which includes industry and WHS legislation and compliance understanding, load restraint and receipt/dispatch documentation.

Some possible pathways

- » Forklift Driver
- » Furniture Removalist
- » Truck Driver
- » Courier Driver

Courses Offered in Driving Operations

MUSIC, ART AND MULTIMEDIA INDUSTRIES

DANCE

This course is designed for students who are interested in working in the performing arts industry. Students will gain practical and theoretical knowledge of various dance techniques including Jazz, Contemporary and Street. Students will also learn about physical conditioning practices.

Some possible pathways

- » Dancer
- » Choreographer
- » Dance Instructor

Courses Offered in Dance

MUSIC

These courses have been developed for students who have a passion for music. Students will work in a band environment and learn how to set up and pack up for a performance, perform on stage and read and write music. Students are expected to perform on stage and have some experience with a musical instrument.

Some possible pathways

- » Musician
- » Sound Engineer
- » Music Technician

Courses Offered in Music

MULTIMEDIA, CODING AND GAMING

These courses provide an introduction to critical thinking and industry knowledge in a range of multimedia pathways. There are a variety of different specialisations in the creative industries courses including Gaming, Coding and Multimedia. Students will focus on developing critical skills in these areas including animation, digital imaging, film making, programming skills and game design.

Some possible pathways

- » Computer Engineer
- » Film Maker/Editor
- » Website Developer
- » Game Designer
- » 2D/3D Animator

Courses offered in Programming, Coding and Game Design

VISUAL ART

This course is suitable for students who have a passion for Visual Art and want to pursue a career path in this industry. Students will develop their drawing skills, produce creative pieces and examine both the theory and practice of art.

Some possible pathways

- » Artist
- » Designer
- » Graphic Designer

Courses Offered in Visual Arts
