APPENDIX 2: CODE OF CONDUCT

As a VET student of NASSSA school, I agree:

WORK PLACEMENT/TRAINING

- To be punctual to all lessons/shifts. To take only the allocated time for morning, afternoon tea and lunch breaks and return to work promptly. To attend my placement for the normal hours of work for that job (this is Work Placement and I am to treat it as paid work conditions).
- If I am unable to attend a lesson/shift, I will ring my trainer/supervisor (I will be expected to account for any absences and may be required to make up the lost hours at another time).
- To take responsibility for my log book and negotiate a convenient time for a meeting with my supervisor to discuss my progress.
- To ensure that I am aware of and comply with the Work Health and Safety Guidelines in place in the workplace.

RTO /SCHOOL

- To meet deadlines on assignments and projects.
- To use my study time, at school across all subjects, work, and at home productively and in a manner that will improve my chances of obtaining the highest possible grades.
- To take up my role as a VET student responsibly and model appropriate behaviour that will enhance the reputation of the NASSSA schools in both the local community and in the education system.
- To seek help and counselling where necessary.
- To balance my studies with work, social, sporting and family commitments.

GENERAL

- To abide by the host school/RTO behaviour code as well as home school behaviour code.
- To follow all rules/expectations of the school/RTO/workplace (including WHS guidelines) I am working in, recognising that infringement that necessitates disciplinary action will be dealt with in line with site regulations in negotiation with my supervisor/VET Leader.
- To discuss any problems that arise with my lecturer, work placement supervisor or VET Leader (if parents/caregivers have any issues, please talk to the VET coordinator; parents should not discuss them with the RTO or employer).
- To complete satisfaction (quality assurance surveys) when requested during the course. To be contacted within the three years following completion of schooling with a simple survey around usefulness of my VET training in work or further training.
- To allow my photo/image, to be used (without directly identifying me) in reports on/ promotion of, the course or Trade Training Centre facility (if at a school).

APPENDIX 2: CODE OF CONDUCT *continued*

These requirements have been developed in order to make VET programs work successfully for you and the students who follow you.

VET programs are very reliant on the goodwill of the employers who provide work placements - these often result in apprenticeships/employment for students.

When students do not behave appropriately, the programs can be withdrawn because employers no longer want to take on VET students. Therefore, students who do not comply with the Code of Conduct may be removed from the course & parent/caregiver may be liable for costs involved.

This Code of Conduct is to be read along with the other detail on the NASSSA Regional VET Course Enrolment Form.

INFORMATION SHARING

By signing this form as a whole, I agree that all of the details on the form can be provided to the course supervisor and/or Registered Training Organisation for use in the Course Approval, Training and Resulting process.

Should the student the application refers to be approved/accepted into the course, I also agree the information can be passed on to the trainer, to support the learning/training environment, whether this trainer be a teacher-trainer in a DEC D NASSSA school or a Registered Training Organization (RTO) trainer.

I understand and accept these conditions, including the Information Sharing requirement in the green box above:

Competency Notes: Insert anything pertinent to enable good decision making, eg With the addition of two competencies, a dual qualification may be achieved. Or Training Package/Qualification will be updated in 2016 so these competencies may change

Description: The course descriptor plays an important role in assisting our NASSSA students and families, to interpret course information. It should include: What they will be doing in the course eg

a/ Technical skills learnt (to a standard of performance expected in a workplace) eg learning to solder or learning to prepare food for young children or learning to use hand and power tools (can be multiple examples – better to provide plenty of information here!)

b/ Employability skills eg you will need to work with others or in teams, as well as on your own; or you will need to feel comfortable talking to a range of different people (communication) whilst doing your work and standing for extended periods of time; [NB the skills include Communication, Teamwork, Problem solving, Initiative and enterprise, Planning and organising, Self-management, Learning, Technology]

e/ Description of possible assessment tasks eg Students will be required to keep a folio of evidence in the form of photographs of them using skills learnt or a theory workbook is required for each competency in the course or some competencies will require students to complete a theory test or a detailed logbook will be required to be completed during the compulsory work placements

f/ Expectations eg students will be required to wear the provided uniform during the course

Putting this all in "student friendly language" is very advisable, as is de-bunking misconceptions and promoting the most engaging aspects eg Although students do get to try the food that they make, they need to remember that they are cooking to learn, not to feed themselves

Pathways: Include a range of possible career pathways – you can include other course pathways, but you must include careers related to the training... you can stipulate things like "with further training" or "further training then entry to university, could lead to..."

Prerequisites: eg is there a subject which is required before beginning this course

Additional Costs: Insert costs like textbooks, PPE which are in addition to the training cost

Additional Cost Notes: eg Students will be required to provide their own steel capped boots & wear these in the workshop and at any work placement
